## **Kaleo on the River Best Practices / Guidelines for Responding to Covid-19 (Coronavirus)**

The health, safety and well-being of our community, on and off Kaleo on the River's property, is our highest priority and responsibility.

### **Prevention:**

- Avoid close contact with people who are sick
- Avoid touching your eyes, nose, and mouth with unwashed hands
- Stay home when you are sick
- Cover your cough and your sneeze with a tissue discard tissue after single use
- Clean and disinfect frequently touched objects and surfaces using cleaning spray or wipe
- Wash your hands often with soap and water for at least 20 seconds.  
Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.
- Kaleo on the River's staff will routinely clean all frequently touched surfaces, such as workstations, countertops, doorknobs, bathrooms, and all lodging and meeting facilities.

### **Policies and Procedures:**

We are actively tracking updates from the Centers for Disease Control and Prevention, the U.S. State Department and the Nebraska Department of Public Health.

- Dishes are scrubbed, washed, and then sanitized after every use
- Towels and linens are washed in hot water with bleach and / or disinfectant detergent
- Rooms are cleaned thoroughly before, during, and after each group
- Public restrooms are cleaned daily
- Follow Interim Guidance for US Institutions of Higher Education on working with state and local health officials to isolate ill persons and provide temporary housing as needed.
- In areas where ill persons are being housed in isolation, we will follow the Interim Guidance for Environmental Cleaning and Disinfection for US Households with Suspected or Confirmed Coronavirus Disease 2019. This includes focusing on cleaning and disinfecting common areas where staff / others providing services may come into contact with ill persons but reducing cleaning and disinfection of bedrooms / bathrooms used by ill person to "as needed."
- Further policies and procedures are followed as updated per CDC Coronavirus Disease 2019 guidelines
